

## Landscaping at Caravan and Clymer Entrances.

We are pleased to announce completion of landscaping at Caravan and Clymer entrances as part of the Independence screening wall project. As we did in 2020 with the Legacy screening wall project, we contracted with Blue Bonnet Landscape Creations to design and install the landscaping. If you have not yet driven past the entrances at Caravan and Clymer, please do. These entrances are truly beautiful and showcase Whiffletree as an extraordinarily attractive and desirous neighborhood.

I would also like to give special recognition to Tom Dixon and Bill Ostergren for the innumerable hours they spent working with City of Plano as well as contractor to ensure the projected was completed to our satisfaction. Please join me in thanking Tom and Bill for a job extremely well done.

Also, we would like to thank City of Plano Project Engineer, Roshni Kinnard, for her great support throughout the project. Thank you, Roshni!

As stated in the most recent newsletter, there are a few minor electrical items yet to be complete, including replacing bars of lights that illuminate the Whiffletree monument as well as lights in the trees. These items are on order and expected in the next 4-6 weeks. They will be installed by the contractor once received.

I hope you agree that these are exceptionally attractive entrances that welcome neighbors and visitors to Whiffletree, a beautiful and inviting neighborhood!

Jim Skelly
